Summary

AI Engineer and Data Scientist with hands-on experience architecting production-grade autonomous AI agents, LLM-powered decision engines, and multi-stage ML pipelines. Specialized in designing safety-critical AI systems with real-time constraints, risk guardrails, and semantic reasoning at scale. Proven expertise in prompt engineering, RAG systems, and autonomous agent orchestration for high-stakes applications.

Education

Madan Mohan Malaviya University of Technology (MMMUT) Gorakhpur, India
B.Tech in Computer Science and Engineering — CGPA: 7.4 / 10 2022 – 2026

Technical Skills

AI & ML: Machine Learning, NLP, LLM Integration, Prompt Engineering, AI Agents, RAG, Text Embeddings, Semantic Search, Anomaly Detection, Predictive Modelling

Libraries: Scikit-learn, Pandas, NumPy, LangChain, OpenAI API, Sentence-Transformers, Matplotlib, Seaborn

Languages & Tools: Python, JavaScript, Java · MySQL, MongoDB, Git, GitHub, Jupyter, VS Code, Postman

Core Competencies

LLM Systems: Prompt Engineering, Chain-of-Thought Reasoning, Function Calling, Multi-step Agent Orchestration, LLM Fine-tuning, Token Optimization, Cost-Aware Model Selection

Production ML: Real-time Inference, Latency Optimization, Model Monitoring, Anomaly Detection, Batch Processing, Data Pipeline Engineering, Feature Engineering

AI Safety & Reliability: Guardrails Design, Risk Assessment, Error Handling, Hallucination Mitigation, Input Validation, Failover Mechanisms

Projects

SentientWallet — Autonomous AI Agent for DAO Treasury Management 2025--26
AI Engineer — Python · LLM · AI Agents · DeFi · Web3 · <https://github.com/vaibhav7506/SentientWallet>

- Architected an **autonomous AI Agent CFO** monitoring crypto markets 24/7; processes signals and triggers decisions (swaps, transfers, lockdowns) in **under 3 seconds**.
- Built an **LLM-powered decision engine** with guardrails covering **5+ risk scenarios** (crash, exploit, liquidity crisis, slippage, rug pull) with a full plain-language decision log.

Stack: Python · LangChain · OpenAI API · Web3 · DeFi · Real-time Market Data · Rule-based Guardrails

Career Intelligence Engine — LLM-Powered Resume Scoring Platform 2025
AI Developer — Python · LLM · NLP · Text Embeddings · Semantic Search · <https://github.com/vaibhav7506/ResumeAnalyzer>

- Built an AI platform that **semantically matches resumes to any JD** via embeddings and cosine similarity, with a 0–10 compatibility score and **section-level breakdown**.
- Engineered a **company recommendation engine** mapping profiles to company personas across tech stack, domain, and culture; surfaces **3–5 ranked improvement suggestions**.

Stack: Python · Sentence-Transformers · OpenAI API · LangChain · Cosine Similarity · NLP · Semantic Search

Industrial Sensor Fault Detection — End-to-End ML Pipeline 2024
Data Scientist — Python · Scikit-learn · XGBoost · Random Forest · <https://github.com/vaibhav7506/sensor-fault-detection>

- Built an **ML classification pipeline** for multi-class industrial sensor fault detection enabling predictive maintenance and reducing unplanned equipment downtime.
- Benchmarked Random Forest, XGBoost, and SVM with **cross-validation and hyperparameter tuning**; XGBoost achieved **highest precision on minority fault classes**, minimizing false negatives.

Stack: Python · Scikit-learn · XGBoost · Random Forest · SVM · Pandas · NumPy · Cross-validation

Achievements & Certifications

LeetCode: Solved 340+ algorithmic problems; strong DSA and problem-solving proficiency.

SentientWallet: One of the first autonomous AI Agent CFOs for DAO treasury management combining LLM reasoning, real-time monitoring, and risk controls.

Certifications: Programming using Java — Infosys — Backend REST API with Node.js — Udemy — NoSQL — Infosys

Positions of Responsibility

Captain, University Football Team MMMUT
Leadership & Team Management

- Led team across inter-college tournaments; managed training schedules, match strategy, and coordination.

Organizer, AAYAAS — Annual Sports Fest MMMUT
Logistics & Event Management

- Coordinated 15+ events with 200+ participants; oversaw end-to-end scheduling and volunteer management.
